

Stoner Car Care Adds Safety to Winter Travel

Stoner Car Care, producer of America's #1 selling automotive glass cleaner Invisible Glass, has added a new product. Invisible Glass Clean & Repel takes the superior cleaning ability of Invisible Glass and adds a powerful, long lasting water-resistant coating. These two items together will improve visibility in wet weather, improve response time by 25%, and create a safer driving experience.

Improved visibility adds up fast. At 40 MPH, 1-second of response time equals 58 feet of travel distance. Invisible Glass Clean & Repel will allow your windshield to shed water even if you are not using your wiper blades. Using Invisible Glass Clean & Repel can also add life to your vehicle's wiper blades by making bird droppings, salt spray, road dirt and bugs easier to remove.

Invisible Glass Clean & Repel is simple to use. Instead of having to clean a window, apply a separate product then clean off excess, now one bottle does it all.

Stoner Car Care products, like Speed Bead and Invisible Glass, have been expertly formulated for use on high-end automobiles that may be antique or modern. Stoner Car Care products are currently sold in retail stores across the United States, Australia, Canada, China and more.
